Abstract.

Personal bibliographic resources play a crucial role in the study of history. They include an individual researcher's collection of books, articles, archival materials, notes, and digital databases that are used to analyze and interpret historical events. Such resources help historians organize information, verify facts, and build a solid foundation for academic research. By developing personal bibliographies, historians can track the evolution of ideas, identify reliable sources, and avoid duplication in their studies. In the modern era, digital tools and online databases have expanded access to historical materials, making personal bibliographic systems more comprehensive and efficient.

Thus, personal bibliographic resources remain essential for accurate, systematic, and independent historical research. The article is devoted to personal bibliographic sources on historical science. Examples of existing bibliographic indicators in this field are given, and at the same time, extensive space is given to their analysis. The important role of personal bibliographic sources on history in providing information to specialists in the field is noted. A lot of research has been conducted on the development of bibliographic activity in Azerbaijan, which creates bibliographic information resources and reaches consumers. Here, we will talk about bibliographic information sources dedicated to historical science, which constitutes an important field of socio-political sciences.

If we look at the main types of resources included in the system of bibliographic resources on socio-political sciences, we can see their different features and the functions they perform more clearly. In the process of creating personal bibliographic resources, all works written by the person being discussed, as well as translations and literature about him, are taken as the object of bibliography. The literature coverage of such bibliographic resources is related only to that person. The system of personal bibliographic resources as a whole has a wide bibliographic information potential and plays an important role in the bibliographic search for literature in the field included in this system.

Персональні бібліографічні ресурси в системі вивчення історії

Садігова Солмаз Азай*Бакинський державний університет (Баку, Азербайджан)*

Анотація.

Персональні бібліографічні ресурси відіграють вирішальну роль у вивченні історії. Вони включають колекцію книг, статей, архівних матеріалів, нотаток та цифрових баз даних окремого дослідника, які використовуються для аналізу та інтерпретації історичних подій. Такі ресурси допомагають історикам упорядковувати інформацію, перевіряти факти та створювати міцну основу для академічних досліджень. Розробляючи персональні бібліографії, історики можуть відстежувати еволюцію ідей, визначати надійні джерела та уникати дублювання у своїх дослідженнях.

У сучасну епоху цифрові інструменти та онлайн-бази даних розширили доступ до історичних матеріалів, зробивши персональні бібліографічні системи більш повними та ефективними. Таким чином, персональні бібліографічні ресурси залишаються важливими для точних, систематичних та незалежних історичних досліджень. Стаття присвячена персональним бібліографічним джерелам з історичної науки. Наведено приклади існуючих бібліографічних показників у цій галузі, і водночас великий простір приділено їх аналізу. Відзначено важливу роль персональних бібліографічних джерел з історії у наданні інформації фахівцям у цій галузі. Було проведено багато досліджень щодо розвитку бібліографічної діяльності в Азербайджані, яка створює бібліографічні інформаційні ресурси та охоплює споживачів. Тут ми поговоримо про бібліографічні інформаційні джерела, присвячені історичній науці, яка є важливою галуззю соціально-політичних наук. Якщо ми розглянемо основні типи ресурсів, що входять до системи бібліографічних ресурсів із соціально-політичних наук, ми зможемо чіткіше побачити їхні різні особливості та функції, які вони виконують.

У процесі створення персональних бібліографічних ресурсів об'єктом бібліографування є всі твори, написані особою, про яку йде мова, а також переклади та література про неї. Літературне охоплення таких бібліографічних ресурсів стосується лише цієї особи. Система персональних бібліографічних ресурсів у цілому має широкий бібліографічний інформаційний потенціал і відіграє важливу роль у бібліографічному пошуку літератури в галузі, що входить до цієї системи.

Ключові слова: інформаційне суспільство, історія, персональна бібліографія, інформаційне забезпечення, науково-допоміжна бібліографія

Introduction.

Personal bibliographic resources have a special place and importance in the bibliographic information system of Azerbaijani historiography. These types of resources provide bibliographic information on all the scientific activities of historians, as well as documents written about them, and have extensive search capabilities in historical science in general.

So far, bibliographic indexes have been published about many well-known and prominent historians of Azerbaijan. We can mention personal bibliographic resources dedicated to A. Sumbatzade (1967, 1979), M. Ghaziyev (1969), Z. Bunyadov (1988), published in the former Soviet period.

The importance of such personal bibliographic indexes was taken into account during the years of independence and their publication continued. During the period we are talking about, personal bibliographic resources were published about Z. Bunyadov, M. Ismayilov, Y. Mahmudov, J. Guliyev, G. Bayramov, A. Abbasov.

Problem setting.

In an informed society, private bibliographic indicators play an important role in informing professionals. One of such fields is personal bibliographic sources on historical science. A few numbers of personal bibliographic directories have been published in the history area in the different years. «Heydar Aliyev from private bibliographic sources: Bibliographic reference book» is necessary especially to note the named indicator. Indicator printed in the high polygraphic level in 2003 by Baku State University modern they have been devoted National leader architect and builder of the Azerbaijan Republic Aliyev Heydar Alirza's 80 annual jubilees. Editor of the indicator is academician A. Maharramov, decorators-authors head of department of Library science of Baku State University, doctor of historical sciences, professor Abuzar Khalafov and doctor of Philosophy on history, associate professor of Bibliography department Baku State University Solmaz Sadigova (2003).

Academician A. Maharramov wrote to the book in the front word of «A big architect Azerbaijan's renaissance» about personality of Heydar Aliyev which has told objective thoughts, Heydar Aliyev surrounding approximately one of the centuries has valued era very highlines (Sadigova, 2003).

As a whole, is worth notice give in the reference book connecting 544 sources in yourself of the «Prominent politician of the world and Azerbaijan, scientific and thoughts of cultural personals about Heydar Aliyev». Electron disk has been prepared of the book in Azerbaijan, Russian and English languages.

The main part.

When speaking printing of private bibliographic directory's spoke is necessary to note the bibliographic directory printed about Z. Bunyadov notable historian scientist of Azerbaijan light by library of the academy.

All science-public activities of this bibliographic directory printed in 1988 scientist has should be reflected in the indicator. Worker of the library of the academy has compiled (private bibliographic directory of «Ziya Bunyadov» 1988) the bibliographic directory H. A. Zulalova. Divisions given in the bibliographic directory are paying of all surveys connected with life, scientific activities of the scientist possible.

Histories have been given this purpose connected with life, scientific activities and public work of the scientist by chronological succession at the beginning of the bibliographic directory. Doctor of Historical Sciences by Ismayilov Mahmud have been written essay to the bibliographic directory. Bibliographic information about all scientific activities of the scientist have been reflected in here. It is able to show monographs about learn primary sources in the Turkic and Arab languages possible of Ziya Bunyadov.

Like in the other private bibliographic directory the Z. Bunyadov's private bibliographic directory history of its publications systematizes and have been shown. Scientific works edited in the bibliographic directory edit by scientist and bibliographic description of the theses defended with his administration has been given in the special division. Light is considered bibliographic directory printed about Bunyadov important source according to these positive features.

Importance of this kind of private bibliographic directory is taken into account in the independence years and their publication has been continued. Private bibliographic means about Z. Bunyadov, M. Ismayilov, Y. Mahmudov, C. Guliyev, G. Bayramov, A. Abbasov have been printed in this time that we dealt with. Azerbaijan has been compiled the academician of which exception services is been devoted son of Musa Bunyadov Ziya Bunyadov two bibliographic means have a important role especially in the learning on the basis of some historical problems of ancient sources. Bibliographic means have been printed in the series of «Science and cultural personal of Azerbaijan» by scientific library of centre of the National Academy of Sciences of Azerbaijan in 1994. This bibliographic directory is variant improved of the first bibliographic means published in 1988 about Z. Bunyadov. Wrote side by side by articles of materials of book which have published in Azerbaijan, Russian, Uzbek, Turk and European languages, magazine, scientific conference, symposium, periodical press and bibliographic information about opinions printed about books have been included of the scientist to the bibliographic directory compiled by Ch. N. Ahmedova (1994) between the 1953-1994th years.

Bibliographic description has been grouped «Work's bibliography», «Comments», «About works and himself» of the 347 documents the giving materials in this bibliographic directory in the chronological rule in 3 named divisions. But works edited has been formed with alphabet rule. From 1988 publication differently of

this bibliographic directory is the basic difference that his wrote here and bibliographic information about opinions printed about books is given. It is the side which does not suffice basically of the indicator differently give of the bibliographic information about theses led by here scientist from the primary publication.

One more bibliographic directory's academician about Z. Bunyadov (2004) have been printed in the «Nurlan» publishing house in 2004.

The compiler of the indicator prepared by Academic of the National Academy of Sciences of Azerbaijan, Institute of Oriental studies named after Z. Bunyadov Z. T. Gurbanova. This bibliographic means differs from point of view the arrangement from two previous indicators devoted to the scientist quiet. Bibliographic information has been included about 1085 documents which have published here. p.s.d., prof at the beginning of the bibliographic means. G. Bakhshaliyeva and h.s.c. «Son of Musa Bunyadov Ziya Bunyadov» written by F. Asadova life and the activities of academician has been lightened in the article with contents in the wide picture. Bibliographic directory consists of two parts. «Work's bibliography» named I am given bibliographic information about 701 documents in the part. Bibliographic description of the works of scientist which has been published here in 1953-1999 have been systematized on chronological principle. Works at the same time printed during years and having according to and it has been reflected to the language of publication in languages of Azerbaijan, Russian, Europe and the east in alphabetical order. Also, materials have been given monograph, article, scientific editing of translation in the years inside. The way of Z. Bunyadov creative work systematizing like this of the documents, it allows of its life to watch it demonstrates development of the creative work style, manner of the scientist, his when prefer to what subject, genre. But it has been shown the opinion devote with name of the work to any publication. But names of works have been given it the publishing persons which was in the language, languages of Arab and Persian by transcription.

Bibliographic directory's second part surrounds articles, opinions that they wrote about its) and works modern of the scientist. Bibliographic description of the 384 documents printed here in 1942-2003 is supplied of the reader to your theoretical. Assistant given at the end of the bibliographic means considerably simplifies usage apparatus from him. Alphabetical index of the works being in the Arab, English, tatar, Turk, Uzbek, Ukraine, French languages later by heading of «European and Eastern languages» of the Z. Bunyadov's works being in Azerbaijan and Russian languages at first have been represented. Alphabetical index of the articles and at the same time translation of the scientist have separately been given. Bibliographic directory is very useful who interested with Z. Bunyadov activities and is quite important investigate our history for historian. So «Moisey Kalankatuklu, "The history of Albania", «Nizamaddin.

Victory letter», «Mehmet Solakzade. History» etc. works from this point of view are very interesting.

One of private bibliographic directory's have been devoted Doctor of Historical Sciences professor Mahmud son of Alabbas Mahmud Ismayilov in the series of "Scientists and cultural figures of Azerbaijan". This bibliographic directory has published in 1993. H. A. Zulalova's this indicator prepared materials of book published in the languages of Azerbaijan, Russian, magazine, scientific session, symposium, conference and bibliographic description shows of the articles. M. Ismayilov's science from the essay written by H. Hasanov, to get wide information connected with public work and pedagogical is the possible. Science of all, works of the materials included to the bibliographic means, works edited theses led by bibliographic information about documents written simply have been systematized about observe to the principle of inside alphabet in the chronological rule being based on the principle of language. If the 1946-1991st years of chronological frame surrounds bibliographic description of the text of the means period prepared works of the scientist where has published in 1992 and the 1946-1991th years of chronological frame should gallop and the 1946-1991th years of chronological frame have separately been reflected in this indicator at the end.

Bibliographic directory's three auxiliaries is completed by indicator-works, alphabetical index of the authors writing at the end about and.

The private bibliographic directory about Doctor of Historical Sciences professor son of Bahadur Jamil Guliyev has been printed in the series of "Scientists and cultural figures of Azerbaijan" in 1999. Decorators are C. Ahmedova and A. H. Orucova and this bibliographic means surrounds the description of the articles printed in the periodical press and some magazines of monograph, book, booklet published in Azerbaijan and Russian languages in 1953-1998. It is very worth notice give in the adjoining Russian and English languages of the short essay by Azerbaijani about historian at the beginning of the book. To get bibliographic information about documents connected with and scientific chief and adviser of works of the scientist, books edited here theses, life and public work is the possible. Separately is to give of the articles by «Publicity» heading divide one of important sides in the composition of the bibliographic means here of "The bibliography of scientific publications". This side simplifies the process of search namely of the reader. Means have been secured by alphabetical index of the works of the scientist and joint authors at the end.

Novelty.

One more private bibliographic means devoted to our historians is about Doctor of Historical Sciences professor sacrifice Bayramov Gurban Mammad. This means has been published in 2004. H.s.n., dos. K. Shukurov is decorator and has been systematized bibliographic description of the 168 documents in the

indicator was as a whole. His works in some subdivisions after life and article show creative work; Opinion in the of them; Theses led by; Works edited; Dissertational works was Bibliographic information is given about works criticized. Alphabetical index of works has been showed at the end.

Corresponding member of one more private bibliographic means printed in the series of «Azerbaijan's science and culture personals» National Academy of Sciences of Azerbaijan, Doctor of Historical Sciences, professor have been devoted age Abbasov Arif Akim. Means published in 2005 surrounds the materials of Azerbaijan, Russian and monograph, magazine, scientific session published in the other foreign languages and bibliographic information about articles printed in the periodical press of the historian 1965-2005 years. Life of the scientist as in all the bibliographic directory s that we gave information about before this here first of all, scientific and chronology of the basic histories of public work have been given. Short essay has been represented in Azerbaijan, Russian and English lightening the social, political activities of A. Abbasov science later languages.

One of basic qualities of the private bibliographic directory its complete be. Therefore, bibliographic search, its investigation attentive, exact, deep much and if it is wide, indicators it compiled as many as full, powerful and it will be rich.

Conclusions.

Scientific assistant has elect in the composition of the private bibliographic directories of character of the materials to the big superiority. Elect in the composition of the private bibliographic directories of the literature

is implemented according to chronological criteria. Chronological principle gives faith to investigate the development ways of one or another scientist, any writer or creative work of the scientist. Gallop works to two basic signs has been described in the indicator in the chronological order; to be writing of the works historical and it is formed according to the history of publication. Material elected of the grouping of the bibliographic information logical and systematically to systematize, gallop and it has allowed has been shown from the bibliographic side works to create connection between. The grouping carrying out of the basic ideological meaning of the indicator plays the important part quiet. The grouping the departments of the private bibliographic directory and the subordination between subdivisions and it opens inside connection.

Materials have been grouped in four divisions, divisions of «Works' bibliography», «Editing», «Adviser and scientific-assistant», «Literature about life, activity and works». All documents included to the means have been systematized on years. «Partner authors'», «Authors' write about» given from the bibliographic directory at the end for the simplifying the usage have been show memories connected with A. Abbasov of the a few well-known scientists after alphabetical index. An important role is personal bibliographic sources on the history of providing information support to field specialists.

The author's scientific articles devoted to the science of history and a number of topical topics have been published in foreign and indexed journals (Sadigova, 2010, 2016a, 2016b, 2018, 2021a, 20121b, 20121c).
